**Sustainable mobility:
more than an alternative!**

Since 8 years.

Along the years the exhibition has grown up and has gained an excellent position among the cantonal fairs.

Unique in Switzerland.

It's the unique exhibition in the country, wholly dedicated to sustainable mobility. The 2011 edition will focus particularly on new vehicles with alternative traction and technology coming on the Swiss market.

Ticino: privileged marketplace.

Ticino is the most motorized Canton in Switzerland. It's an excellent market place for distributors and resellers for low emission vehicles due to the introduction, in 2009, of "Eco incentives".

Don't miss the opportunity.

The biennial event allow you to present to visitors your latest new models.
